April 28, 2023

Dear Office of Medical Marijuana Use Regulators:

I am honored to present our FARMACEUTICALRX (“FRX”) application for MMTC licensure in the State of Florida. Our affiliated businesses were awarded licenses to operate in PA and OH. We successfully operationalized our FRX of PA and FRX of Ohio businesses, and are today among the leading brands in both States. We are one of only 25 companies in the US to meet Certified Kind LLC’s rigorous organic cultivation standards. We focus on science and innovation and were selected as the exclusive research and development partner of Florida A&M University. We are committed to advancing under-resourced communities and to protecting the planet. We will bring economic development, good paying full time jobs, and community involvement to the communities in which we operate in Florida, as we have done in PA and OH.

Premium Organic Medical Marijuana for Florida Patients – Our team has a proven track record of producing the highest quality, organic medical cannabis within the medical markets in which we operate. Our organic living soil cultivation methods have to date saved more than 10,000 cubic yards of soil from landfills - a testament to our experienced team. Our Ohio cultivation operations received formal organic certification from the Certified Kind LLC organization in January 2023. The EIA Social Enterprise Fund in Central Florida recognized this commitment and provided us with our Florida seed capital.

Protecting Our Planet Through Implementation of Environmental Methods – We consider the impact we have on our planet in everything we do including the packaging we use and our organic cultivation practices. We utilize fully biodegradable jars to package our flower products and will be moving in this same direction with all of our product packaging. We also intend to utilize renewable energy sources, rain water capture technology and the power of the sun at our cultivation/processing greenhouse campus in Felda, Florida.

Advancing Under-Resourced Communities – We select our operational sites in under-resourced communities and dedicate resources & time to serving such communities. Our OH and PA operations campuses and OH dispensary are located in opportunity zones. We selected our initial Florida sites in similar markets. Our team has dedicated >100 hours of community service annually in PA and OH. We will continue this commitment in Florida.

Diversity – Diversity is at the forefront of what drives us. We are honored to have been selected by FAMU as its exclusive R&D partner. FAMU’s impressive history of R&D and its history of promoting minority voices make this an ideal partnership. Our PA & OH hourly teams are both comprised of >60% minority individuals. We intend to match these levels in Florida.

Thank you for the opportunity to be considered for MMTC licensure.

Best regards,

Rebecca Myers,

Founder & Chief Executive Officer
