**FORM 2: WAIVER AGREEMENT AND STATEMENT
For Criminal History Record Checks**

I hereby authorize the Livescan Service Provider of my choosing to submit a set of my fingerprints to the Florida Department of Law Enforcement (FDLE) for the purpose of accessing and reviewing Florida and national criminal history records that may pertain to me. I understand that my background report will be sent to the Florida Department of Health, Office of Medical Marijuana Use (OMMU), and that I would be able to receive any national criminal history record that may pertain to me directly from the Federal Bureau of Investigation (FBI) pursuant to Title 28, Code of Federal Regulations (CFR), sections 16.30-16.34, and that I could then freely disclose any such information to whomever I choose.

I understand that my fingerprints may be retained at FDLE and the FBI for the purpose of providing any subsequent arrest notifications to the OMMU. I further understand that, upon request, the FDLE may provide me a copy of the criminal history record report, if any, it receives concerning me and that I am entitled to challenge the accuracy and completeness of any information contained in any such report. I am aware that procedures for obtaining a change, correction, or updating of the FDLE or FBI criminal history are set forth in section 943.056, F.S., and Title 28, CFR, section 16.34.

I understand that the OMMU may disclose to the applicant for Medical Marijuana Treatment Center (MMTC) licensure listed below whether I am authorized to serve as an owner or manager for the MMTC upon licensure, as provided in section 381.986, F.S., Florida Administrative Code Chapter 64-4, and applicable emergency rules.

A series of 20 horizontal gray bars of varying lengths, representing a data visualization. The bars are arranged in a vertical stack, with the top bar being the longest and the bottom bar being the shortest. The lengths of the bars vary significantly, with some being nearly full-width and others being much shorter. The bars are a uniform gray color and are separated by small gaps. The overall shape of the bars suggests a distribution or a set of data points being compared.

[REDACTED]

[REDACTED]

A series of horizontal gray bars of varying lengths, representing a data visualization or a list of items. The bars are arranged in a vertical stack, with the longest bar at the top and the shortest at the bottom. The bars are a uniform gray color and have a consistent height. The lengths vary significantly, with the top bar being the longest and the bottom bar being the shortest. The bars are separated by small gaps, and the overall arrangement suggests a descending order of length.

[REDACTED]

[REDACTED]

[REDACTED]

A horizontal bar chart consisting of 20 bars. The bars are arranged vertically, with the longest bars at the top and the shortest bars in the middle. The lengths of the bars vary significantly, with some being nearly full-width and others being very short. All bars are a solid gray color. The bars are arranged in a single column, with the longest bars at the top and the shortest bars in the middle. The lengths of the bars vary significantly, with some being nearly full-width and others being very short. All bars are a solid gray color.

A series of horizontal gray bars of varying lengths, representing a data visualization. The bars are arranged in a list-like structure, with some bars being longer than others, suggesting a comparison of values. The bars are solid gray and have a uniform thickness. They are positioned against a white background, and their lengths vary significantly, with some reaching nearly the full width of the image and others being much shorter. The bars are stacked vertically, with a small gap between each one. The overall effect is a simple, minimalist representation of data, possibly a bar chart or a list of items with associated values.

[REDACTED]

[REDACTED]

A series of horizontal gray bars of varying lengths, resembling a barcode or a stylized text representation. The bars are arranged in a vertical stack, with some being longer than others, creating a rhythmic pattern of light and dark gray.

[REDACTED]

[REDACTED]

A series of 20 horizontal gray bars of varying lengths, representing a data visualization. The bars are arranged in a vertical stack, with the longest bars at the top and bottom, and a few shorter bars in the middle. The bars are uniform in color and width, with the variation being in their length. The overall shape of the bars, when viewed together, vaguely resembles a stylized letter 'E' or a comb.

[REDACTED]

[REDACTED]

A series of horizontal gray bars of varying lengths, stacked vertically, resembling a barcode or a stylized text representation. The bars are arranged in a way that suggests a sequence or a list, with some bars being longer than others. The overall effect is a rhythmic, repetitive pattern of gray and white space.

[REDACTED]

[REDACTED]

A series of 15 horizontal gray bars of varying lengths, representing a list of items. The bars are arranged vertically, with the longest bars at the top and the shortest at the bottom. The lengths vary significantly, with some bars spanning almost the entire width of the image and others being much shorter. The bars are a uniform gray color and are separated by small gaps.

A series of 20 horizontal gray bars of varying lengths, representing a data visualization. The bars are arranged in a single column, with the longest bars at the top and the shortest bars in the middle. The lengths of the bars vary significantly, with some being nearly full-width and others being much shorter. The bars are a uniform gray color and are separated by small gaps. The overall shape of the bars suggests a distribution that is skewed to the right, with a few very long bars and many shorter ones. The bars are positioned within a white rectangular area, which is part of a larger document page. The bars are of different heights, with some being taller than others, but all are the same width. The bars are arranged in a way that they appear to be part of a single data set, with each bar representing a different category or value. The bars are a simple, clean design, with no text or other markings on them. The bars are a solid gray color, and the background is white. The bars are arranged in a vertical stack, with the longest bars at the top and the shortest bars in the middle. The bars are of different heights, with some being taller than others, but all are the same width. The bars are arranged in a way that they appear to be part of a single data set, with each bar representing a different category or value. [illegible]

- _____

A series of 14 horizontal gray bars of varying lengths, stacked vertically. The bars represent data points for different categories, with lengths ranging from approximately 25% to 100% of the total width. The bars are arranged in a descending order of length from top to bottom.

- _____
